TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, C++, C
- **Backend:** NestJS, Node.js, Express.js, FastAPI, REST APIs, Microservices
- **Frontend:** React.Js, Javascript, HTML5, CSS3, Next.Js
- **Databases:** MongoDB, MySQL
- **Tools:** Linux, Nginx, Git, GitHub, Postman, Swagger/OpenAPI

PROFESSIONAL EXPERIENCE

Fullstack Developer Dec 2025 – Aug 2026
Microcosmworks *delhi, India*

- Owned end-to-end payments for a subscription SaaS product: payment gateway integration for checkout, and webhook-driven reconciliation; variable-amount autopay covering mandate creation, authorization, and charge-at-will debits; multi-currency USD/INR billing with live exchange-rate conversion; and scheduled jobs that expire trials and trigger renewals without manual intervention.
- Designed and shipped REST APIs and microservices in NestJS and FastAPI, with request validation, JWT authentication, and role-based access control across services.
- Built React front-ends for billing and account management, using the Context API to share auth, subscription, and entitlement state across the component tree and cut redundant API calls.
- Deployed and services on on-premise Linux servers, handling configuration, log monitoring, and incident debugging.

Software Development Intern Dec 2024 – Jun 2025
Ilika Software Technologies *Rishikesh, India*

- Developed and integrated backend REST APIs powering web application features and internal business workflows.
- Optimized database queries and server-side logic, reducing response times on the slowest endpoints.
- Shipped features through agile sprints, participating in code reviews and coordinating deployments with the senior team.

Full-Stack Developer Intern May 2024 – Aug 2024
Uptoskill *Remote*

- Built backend services and APIs for a MERN-stack educational platform serving students and instructors.
- Designed MongoDB schemas and data access patterns for course, quiz, and user records.
- Delivered quiz management and student assessment modules with server-side validation and secure result handling.

PROJECTS

Trip Gaido — Adventure Travel Booking Platform tripgaido.com

- Built a production travel booking platform for adventure activities in Rishikesh (rafting, bungee jumping, camping, safaris), connecting travelers with verified local operators.
- Developed the booking backend: activity and package catalogs across multiple tiers, date and traveler selection, and instant booking confirmation.
- Implemented online payments with Razorpay, plus WhatsApp-based enquiry routing so users can reach an expert before booking.
- Built the responsive React front-end for browsing, filtering, and checkout, managing booking state with the Context API.

Tech Pixel GFX — Admin & Quiz Management System

- Created backend modules for quiz authoring, student participation tracking, and result computation.
- Implemented authentication and validation to secure admin routes and guarantee accurate scoring.

Wanderlust — Listing & Review Platform

- Developed REST APIs with Node.js, Express, and MongoDB for listings, reviews, sessions, and user management.
- Added server-side authorization so users can only modify their own listings and reviews.

EDUCATION

Bachelor of Computer Applications (BCA)
Doon Group of Institutions, Rishikesh
